Office of the State Comptroller
Attention: [REDACTED]
State Office Building – Room 1702
44 Hawley Street
Binghamton, NY 13901-4417

Dear [REDACTED]

We have received the draft copy of the audit of our information technology controls. The exit interview was very helpful in explaining the findings in some detail and we are already working towards improving the areas in which we are least secure. We recognize that some vulnerabilities were found in our system and we will be working through these findings to improve our controls and security.

Upon receipt of the final report, we will develop a corrective action plan which will be sent to your office. This audit was done as a pilot for determining potential vulnerabilities across the state in school information technology; we are very pleased that we were one of the ten selected schools and appreciate that these results will lead us to improve our system.

Thank you for the time and energy you and the other examiners put into this audit.

Sincerely,

Sandra R. Sherwood
Superintendent of Schools

C: T. Carnrike, Business Manager
P. MacCheyne, Director of Information Technology Services
Board of Education, Audit Committee
